EDUCATION

Bowling Green State University	Bowling Green, Ohio
Bachelor of Science in Technology	Expected May 2027
• Developed skills in Digital Media Production • Applied principles of Graphic & Layout Design • Utilized Web & Interactive Media tools • Learned and applied Digital Photography techniques • Created and edited Video Production content • Operated Print Production & Print Technologies	

SUMMARY

Motivated Visual Communication Technology student, graduating in 2027, with hands-on experience in design software, digital media production, and visual storytelling. Skilled in creating impactful visual content across print, web, and interactive platforms. Currently developing expertise in Adobe Creative Suite, video editing, photography, and UX. Collaborative with strong attention to detail, and a passion for blending creativity with technology to deliver engaging user experiences. Eager to apply classroom learning and project experience to real-world design challenges in internships or entry-level roles

WORK EXPERIENCE

Club Demonstration Services	Perrysburg, Ohio
<i>Product Demonstrator</i>	January 2025 - Present
• Set up product displays in high-traffic areas to attract attention of hundreds of customers per shift, enhancing visual appeal and driving engagement. • Promoted products through effective sales techniques, increasing product awareness and contributing to measurable sales growth during demonstrations. • Demonstrated product features to educate customers on usage, benefits, and functionality, resulting in higher customer satisfaction and purchase rates. • Engaged with customers by answering questions, addressing concerns, and providing accurate product information to facilitate informed buying decisions. • Collaborated with team members to coordinate setup, restocking, and workflow during events, ensuring efficient and seamless operations.	

SEL SCHOOLS

<i>Club Demonstration Services at Costco</i>	Cleveland, Ohio
	April 2023 - August 2024
• Revamped overall look and function of school facilities by improving classroom layouts, organizing storage spaces, and improving traffic flow for hundreds of students and staff daily. • Developed new layouts and workflow improvements for 10+ learning spaces, increasing classroom efficiency, accessibility, and usability for teachers and administrative staff. • Operated various maintenance and cleaning machinery (including floor scrubbers, buffers, vacuums, and power tools) to maintain 30,000+ sq. ft. of school facilities, ensuring safe and well-kept environments.	

Villa Angela Saint Joseph High School - Junior Maintenance	Cleveland, Ohio
<i>Junior Maintenance</i>	August 2019 - December 2021
• Completed general cleaning and organizational tasks across 10+ classrooms and common areas daily, enhancing cleanliness standards and ensuring spaces were prepared for student use. • Painted facilities and assisted with minor maintenance, preparing and finishing over 5,000 sq. ft. of interior and exterior surfaces, helping extend life and appearance of school buildings.	

- Performed landscape and grounds maintenance on multiple school properties, including mowing 3+ acres of lawn, trimming shrubs, and removing debris to keep outdoor spaces safe and visually appealing.
